PROFESSIONAL EXPERIENCE

Walgreens

New York, NY

Pharmacy Intern

2025

- Administered 50–100 adult immunizations monthly, including influenza, COVID-19, RSV, pneumococcal, and shingles vaccines.
- Processed and prepared prescription medications in a high-volume community pharmacy setting.
- Conducted MTM services, comprehensive medication reviews, and clinical follow-up calls to assess adherence, effectiveness, and tolerability.
- Coordinated prescription transfers and resolved insurance claim and medication access issues with patients, payers, and community pharmacies.

NYHTC and HANYC Employee Benefit Funds

New York, NY

Pharmacy Intern

2025

- Supported prior authorization workflows by communicating with insurance companies and provider offices, obtaining required documentation, and coordinating benefit verification.
- Assisted with medication access issues and approval follow-up for member therapies.

Additional Clinical and Pharmacy Experience

New York, NY

Hospital, Specialty, Managed Care, and Compounding Rotations

2025

- Reviewed prior authorization and copay workflows at Fidelis Care New York (insurance company).
- Managed transplant and immunosuppressive medication workflows at Total Care Rx and supported specialty services for immunocompromised patients.
- Developed recommendations for treatment optimization. Counseled patients and reviewed therapy for diabetes, hypertension, and hyperlipidemia at NewYork-Presbyterian Queens.
- Prepared non-sterile compounds, TPN formulations, unit-dose medications, and oral syringe preparations across Avanti Health Care, Northwell Health Forest Hills, and St. Mary's Hospital for Children.
- Performed smart pump and medication-use data analysis, literature evaluation, and formulary review support at NYU Langone Hospital Long Island.

PUBLICATION & RESEARCH

St. John's University Department of Pharmaceutical Sciences

New York, NY

Research Assistant

Jun 2022 – Jun 2025

- Conducted cancer cell culture, passage, and MTT assays in a multidrug-resistance research lab under Dr. Zhe-Sheng Chen.
- Collaborated with PhD researchers on data collection and abstract preparation for academic dissemination.
